GB online retailers not delivering is reported as a range (99-111). This reflects the 99 businesses that have indicated non-delivery due to EU Exit and an additional 12 businesses that are not delivering to Northern Ireland but have not confirmed this is specifically due to EU Exit.

It is important to note that this is unlikely to be a comprehensive list, nor does it take into consideration online marketplaces, so it is likely that the number is greater than the Consumer Council is able to monitor / aware of and can report on.

We have provided a chart below detailing how, as of January 2023, the 99 businesses breakdown by sector. This will give some insight into the types of products that Northern Ireland consumers are finding it harder to access from GB retailers.

The Consumer Council has no insight of whether these commercial decisions are temporary or permanent however there has been a steady increase in the number of companies we are aware of resuming deliveries to NI.
