

# Bank branch closures

---

Since 2020, over 50 banks have closed in Northern Ireland. What to do if a bank closes in your area.

When your local bank closes, it's important that you are provided with alternatives.

Below, there is a list of recent or planned bank branch closures in Northern Ireland, information on alternative banking providers, and advice on what you should do if your local bank closes.

## Danske Bank branch closures

Four Danske Bank branches are due to close in June 2024. Click on the link beside the closing branch to see a map that highlights the financial services that remain in the area affected by the branch closure. These include alternative banks, Post Offices, credit unions and cash machines.

Branch closing	Date Closing	Alternative Financial Services
----------------	--------------	--------------------------------

## **What to do if your local bank branch closes**

Think about your banking needs and preferences, then contact your bank directly to discuss how those needs can be met after the branch closure.

If the alternative forms of banking, like online or telephone banking, do not meet your needs, you may want to look at switching bank account and/or provider.
